PROFESSIONAL SUMMARY

Full-stack developer and Computer Science undergraduate (**CGPA 8.53/10**) who builds **scalable, data-driven web applications** with **Next.js, React, TypeScript, Node.js and PostgreSQL/Supabase**, and integrates **LLM features via the Gemini API**. Delivered a **Shopify storefront** for a startup, won the **Best Paper Award at ICCCNet-2025 (UK)**, and solved **269+ LeetCode problems**.

WORK EXPERIENCE

Freelance Web Developer Jan 2026 – Present
Sartae (Streetwear E-Commerce Startup) *Remote*

- Launched a custom **Shopify storefront** for a streetwear brand, managing **10+ product pages** and a full **checkout flow**, resulting in a **20% increase in site navigation efficiency**.
- Structured the product catalog and navigation to support **5 SKUs/collections** by designing custom **Liquid object schemas and metafields**, increasing site navigation efficiency by **20%**.
- Collaborated with the founder on UI/UX, **shipping weekly feature updates** prior to launch and increasing user engagement by **15%**.

EDUCATION

Bennett University Aug 2024 – Present
B.Tech in Computer Science and Engineering *Greater Noida, India*

- **CGPA: 8.53/10** | Coursework: DSA, Operating Systems, DBMS, Computer Networks

SL Convent Public School 2022
Higher Secondary Education (Class XII) – Aggregate: 81% *Rajasthan, India*

SKILLS & INTERESTS

Languages: C++, Python, JavaScript, TypeScript, Java, SQL, HTML/CSS
Web Frameworks & Libraries: Next.js, React.js, Node.js, FastAPI, Flask, Django, Tailwind CSS, Framer Motion, shadcn/ui
Databases: PostgreSQL, Supabase, Redis, SQL
AI/LLM: Gemini API, LLM Integration, Prompt Engineering, Applied AI
DevOps & Tools: Docker, Linux, Git, GitHub Actions, Vercel, GCP, Shopify Liquid/APIs, Codolio
Backend & APIs: REST APIs, JSON, API Integration, Server Actions, Authentication
Core CS: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks

PROJECTS

Eunoia – Student Mental Wellness Platform | *Next.js, TypeScript, Tailwind CSS, Supabase* 2025

- Developed a stigma-free student burnout platform for the **Smart India Hackathon**, supporting **1200 users** via a responsive **Next.js** UI with integrated **light/dark theming**.
- Reduced page load latency by **30%** by implementing **server-side caching** and optimized query routines in Next.js.
- Implemented **token-based user verification** and relational schemas in **Supabase (PostgreSQL)** using **Server Actions**, successfully reducing unauthorized access attempts by **30%**.

MyDishGenie – AI Nutrition Recommendation Platform | *Next.js, Python, Supabase, Gemini API* 2024 – 2025

- Developed an **AI-powered recommendation engine** with **LLM integration via the Gemini API**, structuring complex prompts to process and format nutritional data for **500+ daily users**.
- Designed **normalized database schemas** and index constraints for agent-like retrieval of user configuration models and session history states, improving data retrieval speed by **35%**.

ACHIEVEMENTS & PUBLICATIONS

Building the Decentralized Future: Blockchain Innovation with Ethereum at the Core Aug 2025
International Conference on Computing and Communication Networks (ICCCNet-2025) *Manchester, UK*

- **Best Paper Award**: co-authored and presented at a conference hosted by Manchester Metropolitan University.
- **LeetCode**: **269+ problems solved** (129 Easy, 129 Med, 11 Hard), 46-day streak, 100 Days Badge.
